APPLICATIONS

Business

- Observe warehouse, sales floor, and entrances without expensive and inflexible wiring
- Show computer images on remote TV's for training and presentation when used with PC to TV converters like our Grand UltraMate 2000 and UltraView Pro
- Show training tapes and DVD's in multiple rooms using only one player and no distribution amplifier and no wiring.
- Deliver your message to multiple TV's in tradeshow's without wires, even to multiple booths

Entertainment

- Listen to music all over the house and even out on the patio or pool area from the central player using Grand RF-Amazing II and powered speakers.
- Enjoy satellite TV, rented tapes and DVD's in every room of the house without expensive wiring

Safety

- See who is outside your door on TV using a small camera and Grand RF Amazing II and your regular TV.
- Monitor your baby, your children, the swimming pool, or elderly, ill or disabled in your family using your camcorder or miniature camera.
- Observe your home or office on your Computer monitor with used with a TV to Computer Converter, like our Grand JoyMate.
